PART IV

PRODUCE EXPORT SECTION

On the following pages will be found lists of the principal exporters of a wide variety of agricultural produce arranged alphabetically by commodities. We are indebted to the Department of Trade and Commerce, Ottawa, for their co-operation in supplying the nucleus of this section. We have added considerably to it and have increased its scope by listing various export merchants, forwarders and other classes of business associated with the export of produce. We trust that the inclusion of this section will make the CANADIAN TRADE INDEX a new medium of communication between intending importers the world over and the Canadian producers and exporters of agricultural produce.

GUIDE GUIDE

Indice Commercial
Canadien

2ème PARTIE

Commençant à la page 161, sur papier bleu, se trouvent les noms et les adresses des manufacturiers.

3ème PARTIE

Commençant à la page 287, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.
Le mot principal en Anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, i.e., Quincaillerie, de construction: Cuir, coupe de bottines et chaussures; Enseignes de toile et fibre. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, i.e., Mécanisme de piano—Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on desire l'adresse de la rue, voir la II'ème Partie, commençant à la page 161. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqué par un asterisque*.

4ème PARTIE

Commençant à la page 663. Section Spécial indiquant les noms des exportateurs principaux des produits de la ferme, etc.

5ème PARTIE

Commençant à la page 671 sur papier bleu. Section de Traduction—(a) Français, page 671. (b) Espagnol (édition limité), page 715. Les noms des articles donné dans l'Indice Français et Espagnol sont suivis par leur équivalent en anglais, et l'équivalent en anglais se trouve placé alphabétiquement dans la IIIème Partie.

Because YOU'VE been growing

WE'VE BEEN GROWING

We know quite a lot about Canada's growth because we make so many of its containers — of every type — for every kind of product. And, if we can judge by the needs of its manufacturers, Canada's been doing some growing.

And Canada's growth has kept us growing. Witness the additions we've built to two of our plants—witness the new equipment we've built and installed—witness our new Simcoe plant. Yes, we've been expanding—as we always do to match the progress and meet the needs of our customers.

RUBBERSET BRUSH!

THE greatest compliment a product can have is to be imitated. The most widely imitated paint brush or shaving brush in the world is the Rubberset. Over 50 years ago our inventive genius produced the Rubberset process. Others have never been able to catch up. The difference may not show on the surface. It does show in the result. Sell the genuine. Make sure Old Man Rubberset is in the trade-mark. Correspondence invited from jobbers and dealers in Canada and other parts of the world.

SAVE-LITE *made this* CHANGE!

CUT HOURS OFF *your* LIGHTING BILL *with* SAVE-LITE INTERIOR WALL ENAMEL

Make a change like the above in your plant—and cut hours off your lighting bill. Depending upon location, equipment, etc., Save-Lite will improve lighting conditions in your plant anywhere from 40% to 70%. Improved lighting conditions mean greater efficiency on the part of your employees, and reduce the possibility of accidents.

In addition to its wonderful light reflecting powers, Save-Lite provides a hard, tile-like surface that can be washed again and again. It resists extremes of temperature and the severest conditions of heat, steam, and moisture-laden air. It covers well, lasts a long time, and does not yellow with age, retaining its original brilliant whiteness throughout the life of the paint.

FUME RESISTING WHITE

SAVE-LITE Fume Resisting White is a finish developed to meet the special conditions found in textile mills, laundries, bakeries, etc. Impervious to the fumes of sulphur, ammonia, chloride and tobacco.
